Choosing a solution

CRM

Customer relationship management – Manage your sales leads with our integrated workflow. Update projects and send branded quotes to your contacts.

ERP

Enterprise resource planning – Run your entire business from sales lead right through to invoicing for completed works. One workflow, one place, one source of truth.

FSM

Field service management – Access live information from all scheduled works, including images and signatures. Be in complete control of your team.

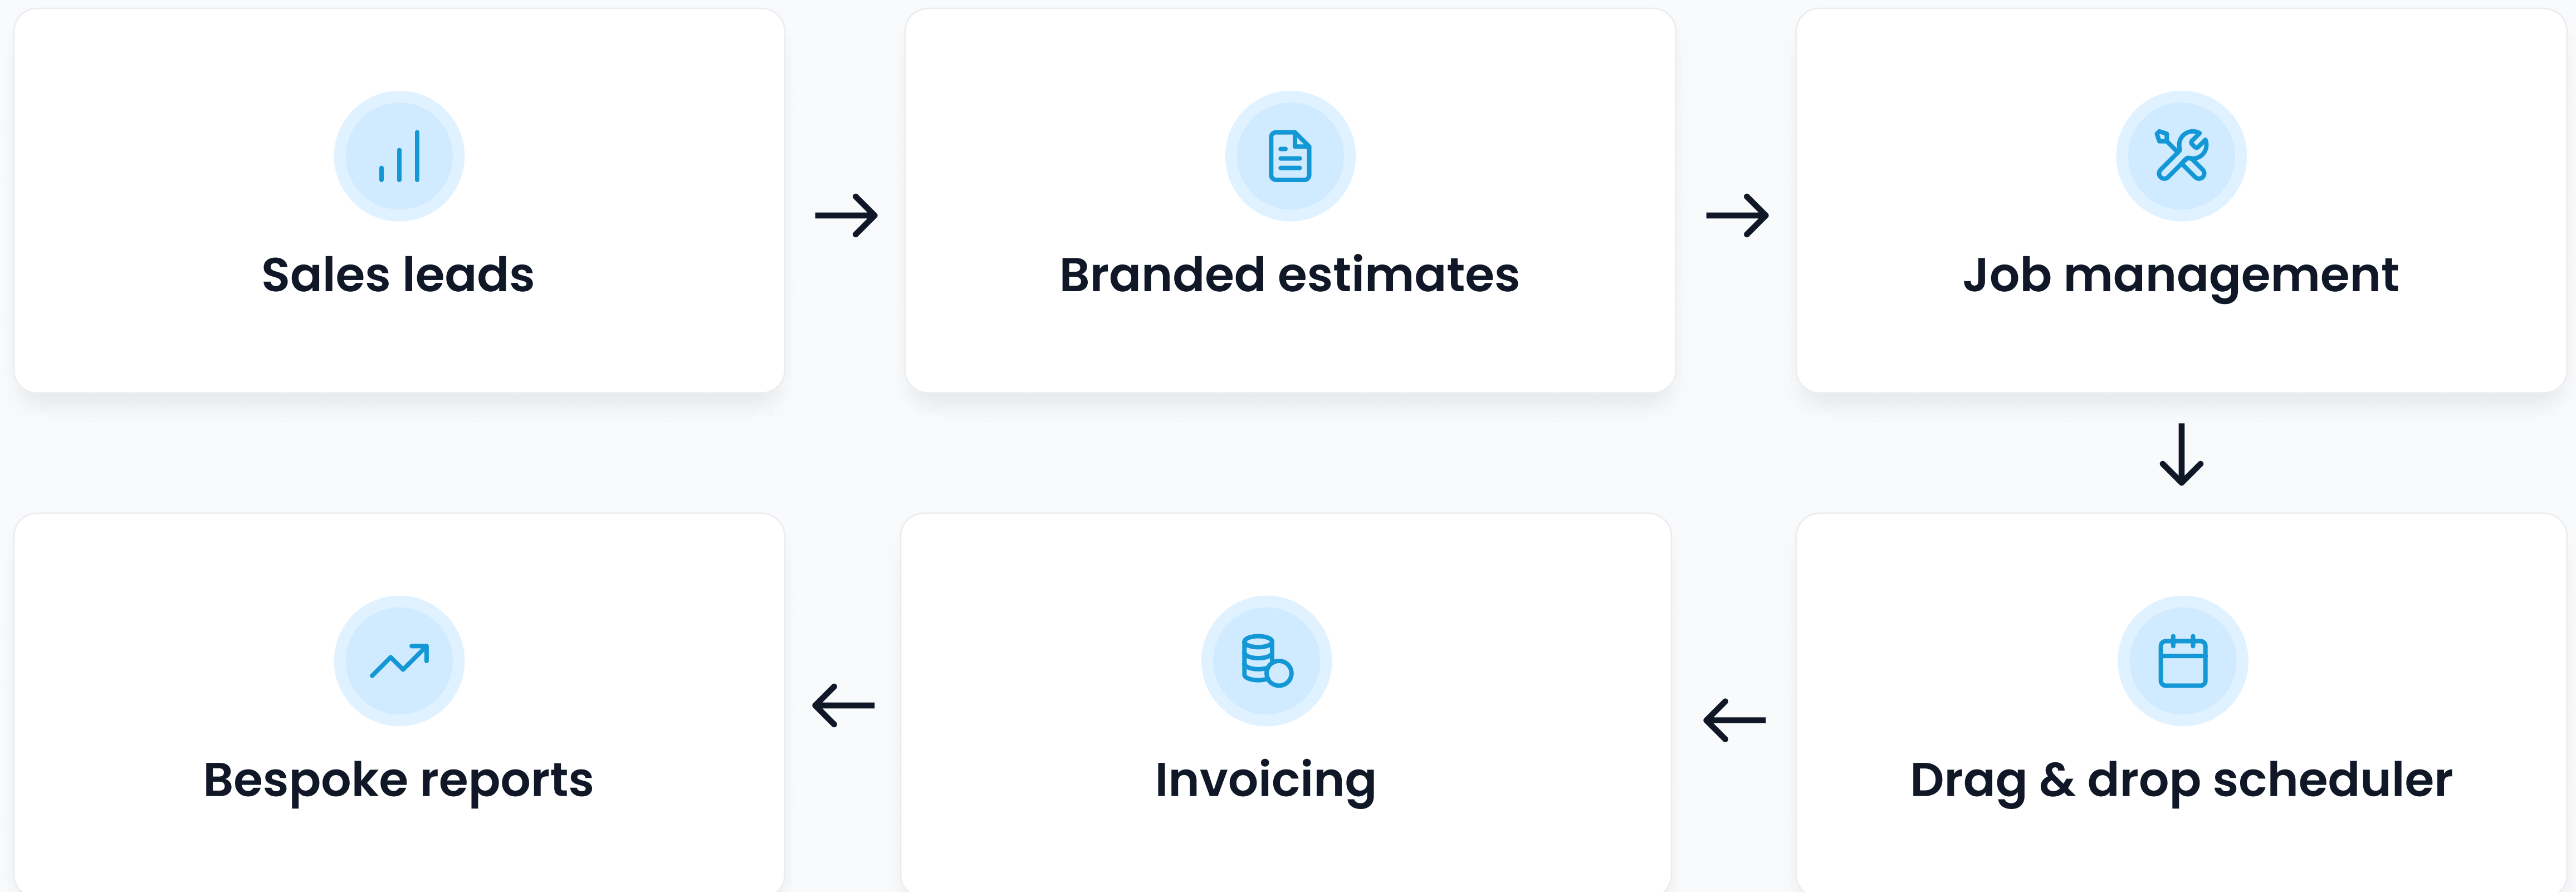

Wave goodbye to outdated processes

Gain live feedback from jobs	<div><div></div></div>	<div><div></div></div>
Create and run service agreements	<div><div></div></div>	<div><div></div></div>
Synchronised invoicing	<div><div></div></div>	<div><div></div></div>
Bespoke reports on KPI's	<div><div></div></div>	<div><div></div></div>

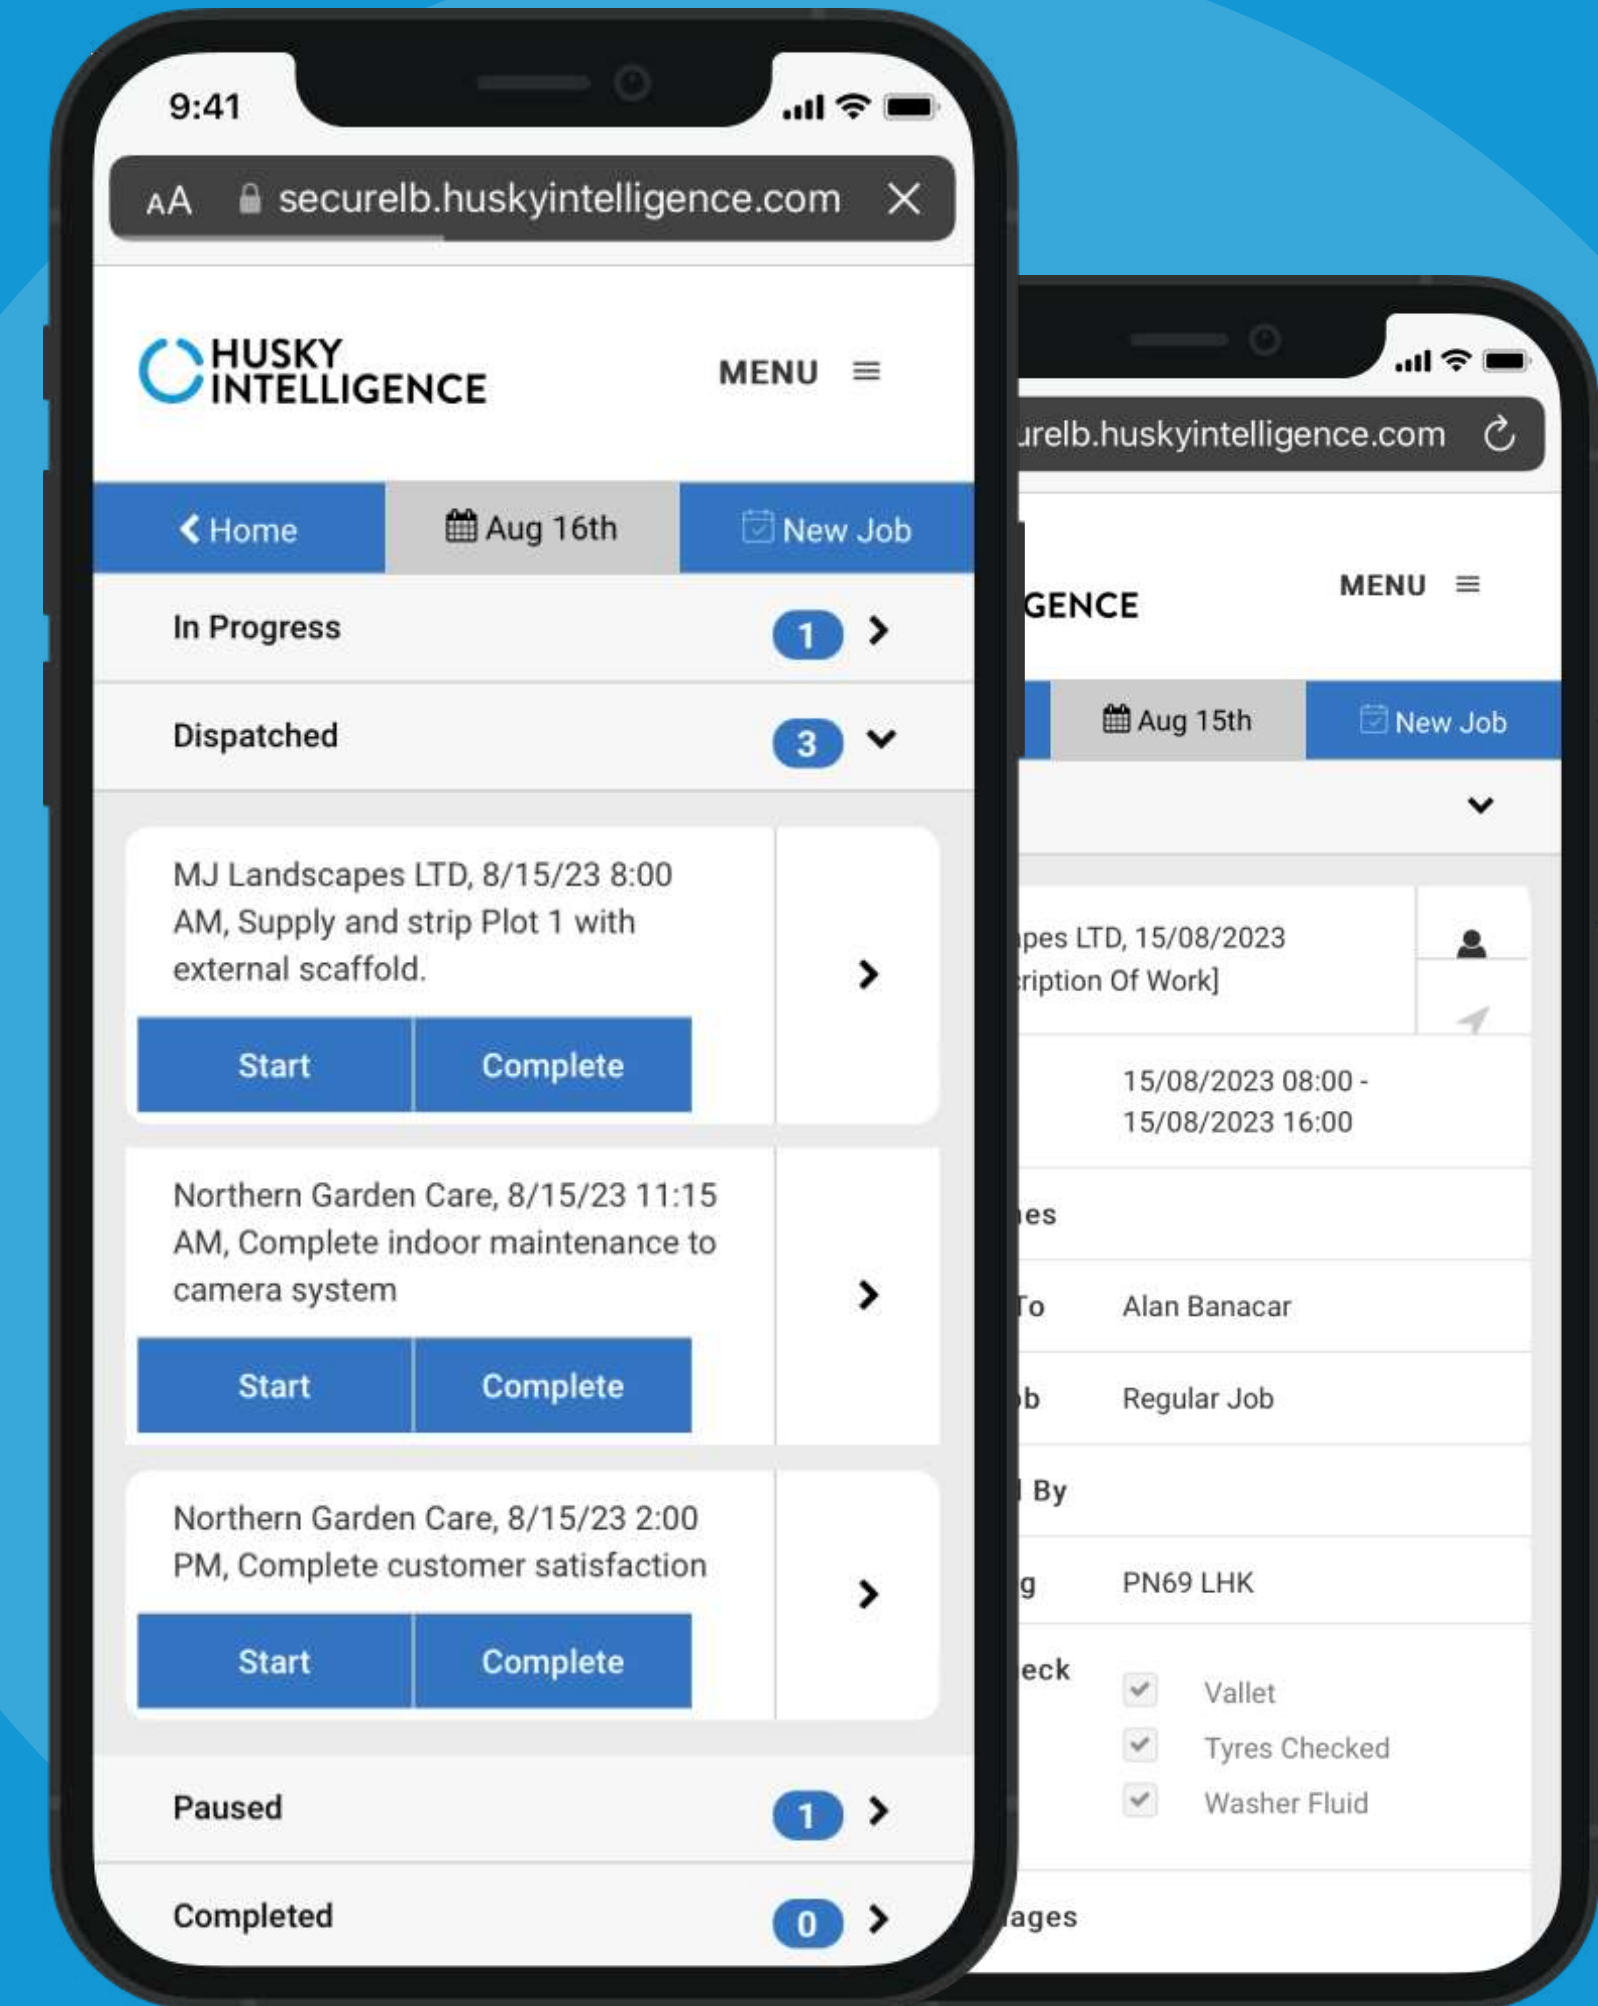

Streamline your entire workflow

Mobile

Our web app allows you to organise your field staff within one centralised platform, wherever they may be located. With mobile, your staff can:

- ✓ Receive job notifications directly to their mobile device
- ✓ Monitor job progress
- ✓ Access and upload job information, such as addresses, photo evidence, customer signatures and more

Service agreements

Husky takes the pain out of creating and managing service agreements. Our software allows you to quickly search your database of customers and use time-based rules to set up jobs to recur on a daily, weekly, monthly or yearly basis. Alternatively, you can arrange jobs recur every 'X' number of days.

Any scheduled work will then be displayed in your employee's schedule for the duration of the service agreement, eliminating the need to manually create new jobs each time a job is repeated.

Messages & alerts

Husky users can setup automated messages and alerts based on various action triggers. Keep your team informed by sending an instant email or SMS notification, such as:

“When a vehicle check is completed, send an alert to joebloggs@xcompany.com”

Each message can be edited with your custom text, meaning your staff will always be kept in the loop with any important changes or updates at work.

The screenshot shows a configuration window titled "Email". It contains the following sections:

- Recipients:** A text input field with "joebloggs@xcompany.com" and a red "x" icon, followed by a blue button labeled "Job: Email" with a red "x" icon. Below this is an empty text input field with a blue "+" button on the right.
- Message Template:** A dropdown menu currently showing "Vehicle Check Complete".
- Send immediately:** A toggle switch that is currently turned on (blue).
- Message Sent:** A section containing an "Actions" area with the following configuration:
 - Update Field:** A dropdown menu showing "Job Status".
 - to value:** A dropdown menu showing "Started".
 - A red trash icon button.
 - A green button labeled "+ Add Action".
- Remove message:** A red button with a trash icon at the bottom left of the window.

Centralise your data

A single source of truth with visibility of the whole company in one centralised place.

Integrations

Get more value from your tools.

- ✓ Open API
- ✓ Integrate with 3000+ apps
- ✓ Connect your tools, connect your teams

“I would highly recommend anyone to use this software, over 8 years i have looked at other systems but nothing is close to this.”

Man Coed VM

Mike Williams – Operations Manager

“Husky aids our operations greatly and gives us further clarity on the day to day running of the business.”

Groundworks 95

Olivia Canitrot – Operations Manager

“Implementing this database has made such a positive impact on our business in many ways. The support provided to us was ‘really’ second to none, and still is.”

Hi Line Transport

Neil McDonald – Finance Director

Thank you.
